# Tri-City Medical Center Neurologic Outpatient Rehabilitation Services

## Neurologic Rehabilitation Services

Our Outpatient Rehabilitation Services offers the most effective means to help people with neurologic conditions attain optimal functional outcomes. Our highly credentialed and experienced team works closely with referring physicians to provide comprehensive evaluations and incorporate patients' goals when developing individualized treatment plans. Patients benefit from our brand-new facilities, attentive caring staff, positive atmosphere, and challenging, rewarding rehab regimes.

## We provide services for patients with the following diagnoses:

- Stroke
- Head Injury
- Spinal Cord Injury
- Balance Training
- Vertigo and Dizziness
- Amputations
- Parkinson's
- Other Neurologic Conditions (i.e. Multiple Sclerosis, Guillane-Barre, etc.)

## Why refer patients to Tri-City's Outpatient Rehabilitation Services?

- Easy access and referral process
- Electronic documentation reduces strain on MD office staff
- Continuity of care between inpatient admission and outpatient care

## What are the benefits for patients?

- We provide advanced-comprehensive outpatient services to ensure best possible outcomes
- **4** convenient locations
