

TRICITY MEDICAL CENTER LIBRARY

SUPPORTING CLINICIANS FOR OVER 20 YEARS

PROVIDING QUALITY INFORMATION IN SUPPORT OF PATIENT
CARE AND TEACHING

EVIDENCE BASED MEDICINE (EBM) is the incorporation of quality medical literature and research to help guide care for individual patients. Together with patient preferences, individual clinical needs, and the clinician's expertise, the practice of evidence-based medicine supports the highest quality of patient care.

TRI-CITY LIBRARY is limited to staff, but we do recommend these websites help you find trusted health information.

FAST FACT:

In 2013, the Pew Research Internet Project reported that "59% of U.S. adults say they have looked online for information about a range of health topics in the past year. 35% of U.S. adults say they have gone online specifically to try to figure out what medical condition they or someone else might have."
