

Tri-City Medical Center

COMMUNITY UPDATE JULY 16, 2020

A Message from External Affairs

Dear Community Partners:

We hope this message finds you and your family healthy and happy.

As you know, Tri-City Medical Center has been distributing periodic reports to our community partners and the public relative to our center's preparedness for a potential surge in COVID-19 patients.

Our goal, as always, is to ensure that we maintain open lines of communication and share information that could prove useful to the community.

As we move forward it is our intention to merge the information contained in the [COVID-19 Command Center Community Update](#) into our Community Connections eNewsletter.

Community Connections contains pertinent information regarding Tri-City Medical Center including insightful articles about our people, programs and services. The newsletter will now include a special section dedicated to COVID-19 and other emerging issues.

The next issue will be sent in the coming days.

Thank you for your continued leadership and support during these challenging times. We look forward to an ongoing partnership to advance the health and wellness of the community we serve.

Respectfully,

Aaron J. Byzak, MBA, FACHE
Chief External Affairs Officer
Tri-City Medical Center
